UNIFORM CRIME REPORTS

State of Florida

1983

ANNUAL REPORT

COMPILED BY THE
FLORIDA DEPARTMENT OF LAW ENFORCEMENT
TALLAHASSEE, FLORIDA

In accordance with Florida Statute 283.27, this public document was promulgated at an annual cost of $15,390.90, or $6.20 per copy to inform the Governor, Legislature, prosecuting authorities and law enforcement agencies of the nature and extent of crime in the State of Florida.

Law Enforcement Code of Ethics

As a Law Enforcement Officer, *my fundamental duty is to serve mankind; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation, and the peaceful against violence or disorder; and to respect the Constitutional rights of all men to liberty, equality and justice.*

I will *keep my private life unsullied as an example to all; maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed in both my personal and official life, I will be exemplary in obeying the laws of the land and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.*

I will *never act officiously or permit personal feelings, prejudices, animosities or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.*

I recognize *the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of the police service. I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession . . . law enforcement.*

CRIME IN FLORIDA
1983 Annual Report

Dear Governor Graham and Members of the Cabinet:

The Department of Law Enforcement has completed the compilation of statewide crime statistics for the report on "Crime in Florida" during 1983, and I am pleased to forward to you the 1983 Annual Report.

For the second consecutive year, the number of serious crimes reported in Florida has reflected a decrease. This is encouraging news for all of the citizens of Florida who have committed themselves to reducing crime in our state. However, it does not mean that we can let up in our battle against the criminal element. There has been a significant impact on crime, but given the substantial increases experienced during the years 1978–1980 and the small increase of 1981, we still have a long way to go to return the crime volume to a more tolerable level. Florida has been a national leader in this effort and it is essential that we maintain this aggressive posture against unlawful activity.

The statistics indicate that the combined efforts of our citizens, public officials and the law enforcement community of the state have been effective in reducing crime. These efforts must continue, to use a metaphor, the fire is not out so we must not cut off the water. Over seven hundred thousand (724,247) serious felonies in Florida a year are far too many.

Last year a survey was included in the annual report to allow UCR users to express their opinion regarding the publication's usefulness and possible areas of improvement. As a result, the report has some new sections that are of special interest.

- On page 10 there is a brief summary of the survey results.
- The modified crime rates shown on pages 16–18 now incorporate the average number of days an individual will stay in Florida which is used to show a truer picture of population increase and crime rates.
- On pages 36–37 ten year crime trends are shown for offense and arrest data for the period from 1974 through 1983.
- On pages 43–49 crime trend projections for 1984 have been added.
- State correctional officers have been added to our officers killed and assaulted section.

We will continue to enhance this publication through periodic changes to offer a more efficient document. Our efforts at this time include research on the impact of the transient population on the crime rate and a "serious felony" disposition study of offenders who enter the Florida Criminal Justice System. Once effective methods of data collection are developed and the information collected is validated, further information on these subjects will be incorporated into the report.

Our appreciation is expressed to all the law enforcement agencies that have submitted data and assisted in the compilation of the report.

Sincerely,

Robert R Dempsey

Robert R. Dempsey
Commissioner

THE FLORIDA DEPARTMENT OF LAW ENFORCEMENT

The Florida Department of Law Enforcement is a multi-faceted state investigative agency offering a wide spectrum of services and technical assistance to local law enforcement agencies, which in fiscal year 1983–84 was authorized 915 positions and a budget of over $41 million. Services provided by the Department are listed below.

Office of the Executive Director

- Formulates policy and provides overall command of and direction to the Department of Law Enforcement.
- Assures the Department functions in compliance with Florida Statutes, administrative rules, departmental procedures and productive management practices.
- Through its office of Executive Investigations, provides investigative support for Governor-ordered investigations into public corruption.
- Provides for protection of the Governor and First Family.

Division of Criminal Investigation

- Investigates organized and multi-jurisdictional criminal activity in the State of Florida.
- Provides investigative and analytical assistance to local law enforcement agencies.
- Identifies and apprehends, for subsequent prosecution, violators of various state laws.
- Maintains liaison with other local, state and national criminal justice agencies to assure proper utilization of intelligence and investigative resources.

Division of Criminal Justice Information Systems

- Develops and maintains telecommunications for providing the necessary remote file access to users in the criminal justice community.
- Establishes and maintains systems and applications which collect, store and disseminate basic operational and management information to state and local criminal justice agencies.
- Provides law enforcement, criminal justice and authorized non-criminal justice entities a central point for timely and current identification and criminal history data.
- Provides law enforcement, the criminal justice community, the Governor, Cabinet, Legislature and the general public crime and crime-related data for informative and/or decision-making assessments.
- Serves as the State's center for the collection, analysis and dissemination of information relating to missing children.

Division of Criminal Justice Standards and Training

- Establishes and maintains, through the Criminal Justice Standards and Training Commission, uniform minimum standards for the employment and training of law enforcement and correctional officers.
- Establishes and maintains minimum curriculum requirements for schools training law enforcement and correctional officers.
- Ensures the competencies of local and state law enforcement and correctional officers through the process of certification and decertification.
- Conducts comprehensive studies of the variation in salary scale, education and training of law enforcement and correctional officers in Florida for presentation to the Legislature.
- Maintains the salary incentive program for state and local law enforcement and correctional officers.
- Develops advanced and highly specialized training programs for law enforcement and correctional officers and support personnel.

- Ensures the competencies of criminal justice training instructors.
- Administers the Law Enforcement and Correctional Officer Training Trust Funds.

Division of Staff Services

- Provides the Department efficient and effective systems of personnel management, fiscal management and control, audit inventory and purchasing.
- Provides guidance and professional expertise in the preparation of the legislative and operating budget of the Department.
- Conducts comprehensive character and fitness suitability investigations on applicants considered for employment with the Department.
- Provides training programs for all Department personnel and upon request provides specialized training to local law enforcement agencies.
- Provides a statewide criminal analysis laboratory system to meet the needs of the Florida Criminal Justice System.
- Provides administrative support and direction to the Medical Examiners' Commission, thereby assisting that Commission in carrying out its responsibilities under Chapter 406, Florida Statutes.

Division of Local Law Enforcement Assistance

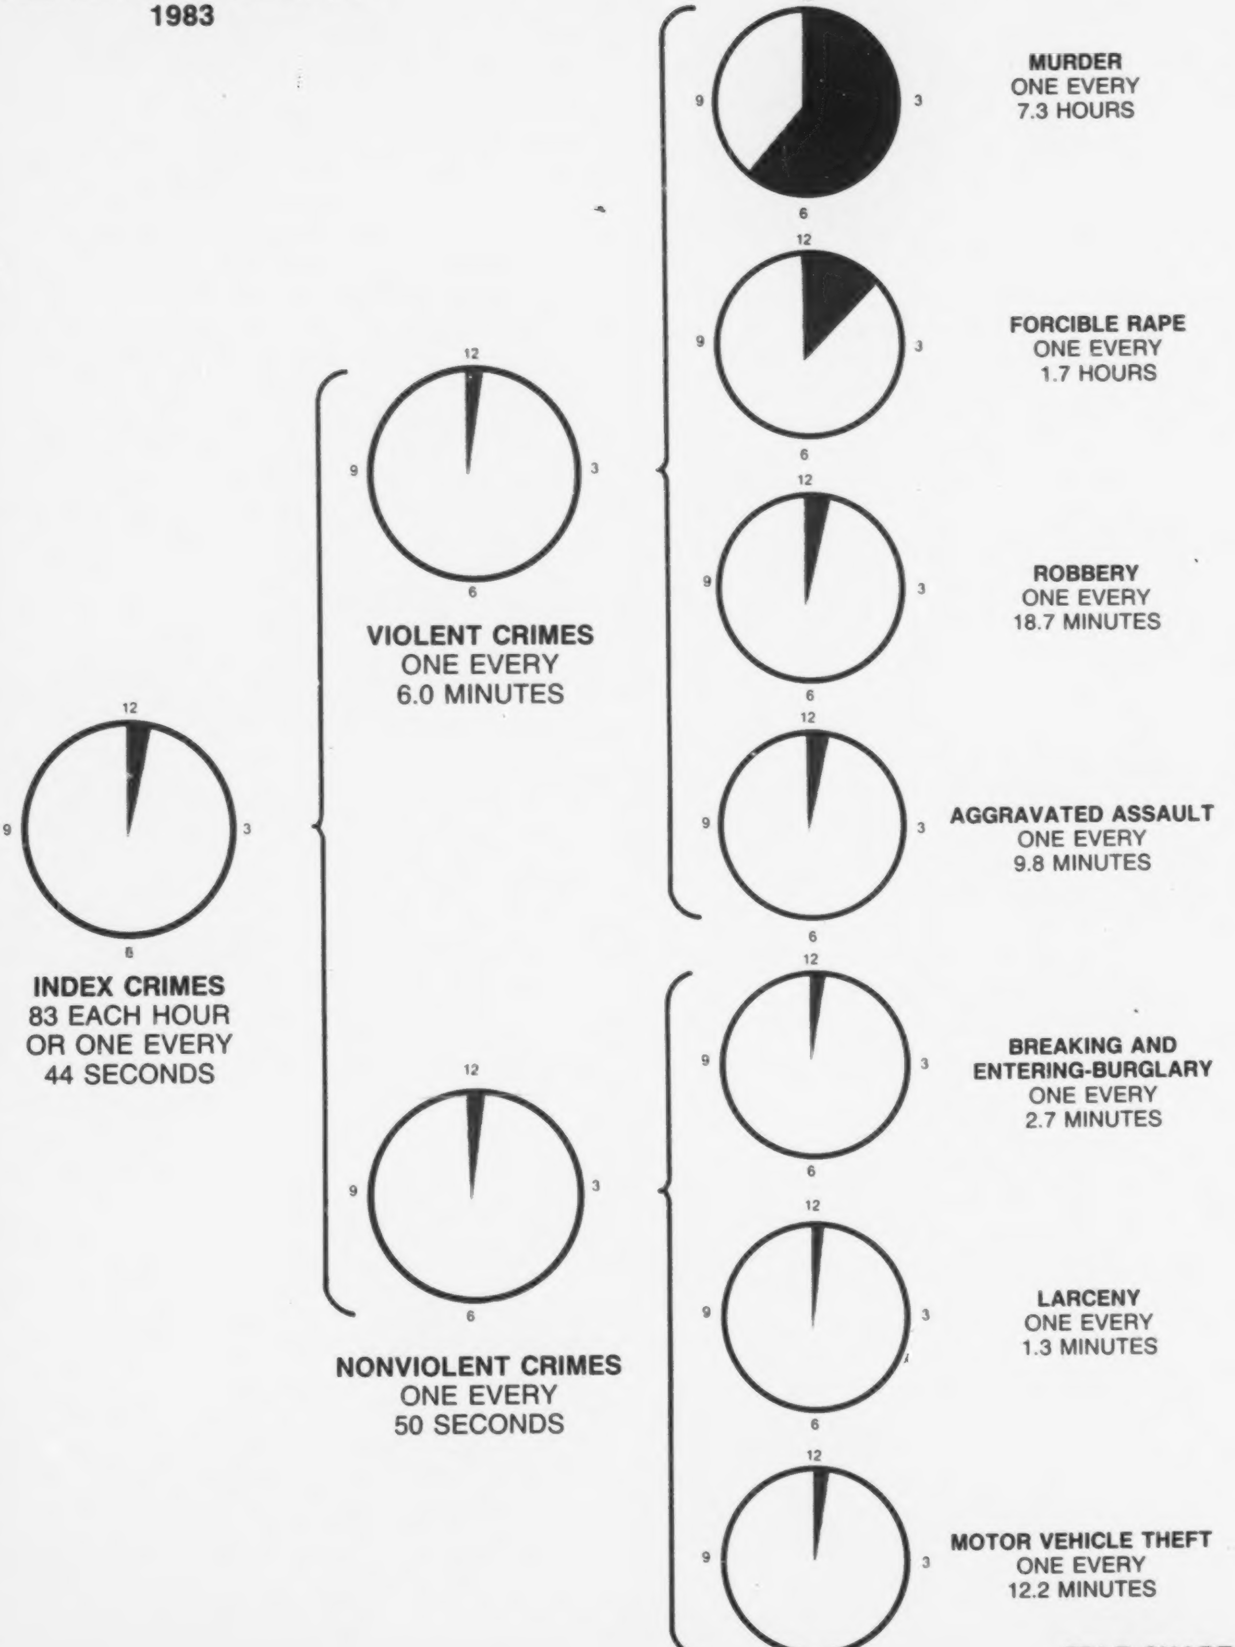
- Continually seeks, effects and maintains professional, credible and effective working relationships between local and state law enforcement representatives.
- Collects, analyzes, stores and disseminates crime specific intelligence data for use by local law enforcement agencies, thereby increasing the effectiveness of their investigative and enforcement efforts.
- Serves as a conduit, allowing local law enforcement agencies better access to the specialized resources available through the Department of Law Enforcement.
- Assures the preparedness of local and state law enforcement agencies to respond effectively to a broad range of emergency situations.
- Develops, prepares, and distributes an assortment of publications relative to criminal intelligence and investigative information to the criminal justice community.

To summarize, the services mentioned above are designed to assist in many facets of the criminal justice system. The Department is continuously seeking to enhance its services to the law enforcement community and other interested persons. You are encouraged to send your comments and suggestions regarding this publication or other services of the Department to:

Commissioner
Florida Department of Law Enforcement
Post Office Box 1489
Tallahassee, Florida 32302

Introduction

FLORIDA CRIME CLOCKS
1983



FDLE CHART

THE FLORIDA UNIFORM CRIME REPORTING PROGRAM

INTRODUCTION

Florida was one of the first states to develop its own statewide program for the collection, compilation and dissemination of Uniform Crime Reports (UCR) by working closely with the Federal Bureau of Investigation's national UCR Program. With the development of the Florida Crime Information Center (FCIC), UCR has been an integral part of the statewide computerized law enforcement information system.

In January 1971, the Uniform Crime Reports and Statistics Bureau of the Department of Law Enforcement, initially began the collection of monthly uniform crime reports from county and municipal law enforcement agencies. As mandated by the Florida Legislature, eighteen publications entitled *Crime in Florida* have previously been disseminated. This document is the thirteenth annual report, presenting statistical information collected and compiled through the year 1983.

FLORIDA UCR PROGRAM

The Florida Legislature, in establishing the Uniform Crime Reports (UCR) statute, mandated the responsibility and authority for UCR data collection and dissemination to the Florida Department of Law Enforcement (FDLE) as follows:

FLORIDA STATUTES, CHAPTER 943

Section 5. Division of Criminal Justice Information Systems.—

(1) The Division shall:

(c) Establish a system of uniform crime reports and statistical analysis.

1. All state, county and municipal law enforcement agencies shall submit to the department uniform crime reports setting forth their activities in connection with law enforcement.
2. It shall be the duty of the Division, under the supervision of the Executive Director, to adopt and promulgate rules and regulations prescribing the form, general content, time and manner of submission of such uniform crime reports required pursuant to chapter 120, and shall have the force and effect of law. Willful or repeated failure by any state, county or municipal law enforcement official to submit the uniform crime reports required by this act shall constitute neglect of duty in public office.
3. The Division shall correlate the reports submitted to it pursuant to subparagraph 1 and shall compile and submit to the Governor and the Legislature semiannual reports based on such reports. A copy of said reports shall be furnished to all prosecuting authorities and law enforcement agencies.

PURPOSE AND OBJECTIVES

The quantitative statistical data derived from the UCR Program will provide assistance in determining the overall scope of the reported criminal activity in Florida and will aid in making effective management studies possible.

The fundamental objectives of the Florida UCR Program are:

(1) Inform the Governor, Legislature, other governmental officials and the public as to the nature of the crime problem **in Florida,** its magnitude and its trends.

(2) Provide law enforcement administrators with criminal statistics for administrative and operational use.

(3) Determine who commits crimes by age, sex, race, whether resident or nonresident, and other social attributes in order to find the proper focus for crime prevention and enforcement.

(4) Provide base data and statistics to measure the effectiveness of Florida's criminal justice system.

(5) Provide base data and statistics to measure the effects of prevention and deterrence programs.

(6) Provide base data and statistics for research to improve the efficiency, effectiveness and performance of criminal justice agencies.

(7) Provide data to assist in the assessment of societal and other causes of crime for the development of theories of criminal behavior.

(8) Provide the FBI with complete UCR data to be included in the national crime reports.

REPORTING PROCEDURE

Crime data and information submitted by municipal and county law enforcement agencies is collected on a daily, weekly, monthly and annual basis. Employee data for law enforcement agencies is collected and published annually.

Starting in January 1972, several minor modifications in reporting procedures were made in response to requests from local agencies and the FBI. Arrests for worthless checks and for narcotics paraphernalia are indicated separately. In January 1973, larceny under $50 (including attempts) was added as an index offense. A program modification in 1975 involved the expansion of drug classifications and new, expanded property breakdowns. In January 1976, a new category under motor vehicle theft was added to classify motorcycles separately.

Commencing on January 1, 1976, the traditional method of collecting UCR data on a monthly basis was enhanced to a sophisticated offense-by-offense program in Florida. The collection process involves two submission methods for an agency: weekly from paper code forms or monthly by computer tapes. With the capability of collecting more detailed data the utility of Florida's UCR Program is enhanced from the contributor and state viewpoint for management, operational and crime trend analysis purposes. By virtue of this enhancement to Florida's UCR Program a more accurate assessment of reported criminal activity can be made. Municipal police and county sheriff departments report the individual offense data known to them in the following crime categories: murder, non-traffic manslaughter, forcible rape, robbery, assault, breaking and entering—burglary, larceny, motor vehicle theft and arson. Offense data is taken from the records of complaints received by law enforcement agencies from victims, witnesses or other sources, or discovered by agencies during their own operations. Complaints determined by subsequent investigations to be unfounded are eliminated from the count. The resulting data on individual "offenses known to law enforcement officials" in these crime categories is reported, without regard to whether anyone is arrested, stolen property is recovered, local prosecutive policy or any other consideration. Municipal and county agencies also report supplemental offense information such as the number of victims, the value of property stolen and recovered, circumstances surrounding homicides and other pertinent data. Additionally, reports of persons arrested are submitted. These reports provide information concerning the age, sex, race and residency of all persons arrested by each individual law enforcement agency. Reports of persons arrested are separated as to adults and juveniles.

VERIFICATION

An obvious concern in the collection of crime statistics for law enforcement agencies throughout the state is the uniformity and accuracy of data received. Program aids such as guides and instructions do not necessarily guarantee the accuracy and correctness of the reports submitted by the contributors. Additional controls therefore are necessary.

Each individual offense report received by the Department is recorded, examined and verified for accuracy and for reasonableness. The verification process includes numerous checks to ensure the validity of information. The elimination of duplication of reporting by individual contributors receives particular attention. Minor errors are corrected by telephone contact between UCR Field Representatives or Crime Information Technicians and the reporting agency. Substantial variation and errors are adjusted through personal contacts with individual contributing agencies. The personal contacts are invaluable to the accuracy and quality of reporting. Field Representatives are engaged in a constant educational effort and provide a vital link between the UCR Program and the contributor.

INCIDENT REPORTING AND RECORDS MANAGEMENT SYSTEM

As an adjunct to the UCR Program, Field Representatives assist Florida law enforcement agencies as requested, in the development of an Incident Reporting and Records Management System (IRRMS). This system can enhance or replace a law enforcement agency's records system in its method of collecting, storing and retrieving all police service information pertaining to a particular criminal case or police activity. IRRMS can provide small and medium size law enforcement agencies a source of complete information that can be utilized by the entire criminal justice system and by administrators as a tool in decision-making policies.

STATISTICAL ANALYSIS

The Florida UCR Program, by examining the various characteristics of offense and arrest data, provides statistical analysis reports to help law enforcement personnel throughout the state in crime prevention. The statistical analyses in each report assists in such areas as the proper assignment and deployment of preventive patrols and aids in the possible reduction of crime through the early identification of patterned activity. Two sources, for example, that can be used when preparing these special statistical reports are the geographical indicator printout and the case summary report. The purpose of the geographical indicator is to depict the number of specific crimes that occur in a particular area. The case summary report allows an agency to review the status (whether cleared by arrest, exceptional or unfounded) of any particular case. In addition, through special requests, other statistical compilations may be prepared for unique situations in local law enforcement agencies.

CONTRIBUTING AGENCIES AND POPULATION

There are currently 341 law enforcement agencies throughout the state contributing directly to the Florida UCR Program—66 county law enforcement agencies and 275 municipal agencies. In addition, 5 state law enforcement agencies, 9 university and 2 county school police departments, 4 airport police departments, and the Seminole Indian Reservation submit data to the program. Daily, weekly, monthly, and annual uniform crime reports received from these agencies represent statistical data covering approximately 100 percent of the estimated Florida population.

The 1983 population figures for the State of Florida, county and municipalities were provided by the Division of Population Studies, Bureau of Economic and Business Research, University of Florida. These population estimates, as of April 1, 1983, were produced under contract for the Department of Administration for incorporation into the 1983–84 Revenue Sharing Program.

The relative statewide estimates reflect populations of 10,591,701 for the year 1983 and 10,375,332 for the year 1982.

SMSA CONCEPTS

The Standard Metropolitan Statistical Areas (SMSA) have been designated for data uniformity among government agencies and between these agencies and the public to include industry and state and local governments. The general concept of SMSA is one of an integrated economic and social unit with a recognized population nucleus. To be more specific, in designating any county as belonging to SMSA, the National Bureau of Standards applies certain prescribed criteria when making this determination.

A Standard Metropolitan Statistical Area always includes a city (cities) of specific population which constitutes the central city and the county (counties) in which it is located. A Standard Metropolitan Statistical Area also includes contiguous counties when the economic and social relationships between the central and contiguous counties meet specified criteria of metropolitan character and integration.

1. Each Standard Metropolitan Statistical Area must include at least:
   (a) One city with 50,000 or more inhabitants, or
   (b) A city having a population of at least 25,000 which, with the addition of the population of contiguous places, incorproated or unincorporated, which have a **population density** of at least 1,000 persons per square mile, and which together constituted for

general **economic** and **social** purposes, a single community with a combined population of at least 50,000 provided that the county or counties in which the city and contiguous places are located has a total population of at least 75,000.

2. A contiguous county will be included in a Standard Metropolitan Statistical Area if:

   (a) At least 75.00% of the resident **labor force** in the county is in the nonagricultural labor force, and

   (b) At least 30.00% of the employed workers living in the county **work in the central county** or counties of the area.

3. A contiguous county which does not meet the requirements of Criterion 2 will be included in a Standard Metropolitan Statistical Area if at least 75.00% of the resident labor force is in the nonagricultural labor force and it meets two of the following additional criteria of metropolitan character and one of the following criteria of integration:

   (a) Criteria of Metropolitan Character.

      (1) At least 25.00% of the **population is urban.**

      (2) The county had an increase of at least 15.00% **in total population during the period** covered by the two most recent Censuses of Population.

      (3) The county has a population **density** of at least 50 persons per square mile.

   (b) Criteria of Integration.

      (1) At least 15.00% of the employed workers living in the county work in the central county or counties of the area, or

      (2) The number of people working in the county who live in the central county or counties of the area is at least 15.00% of the employed workers living in the county, or

      (3) The sum of workers **commuting** to and from the central county or counties is equal to 20.00% of the employed workers living in the county.

From this the following all-inclusive and non-overlapping groupings of the entire state population were established. These groups, referred to as Community Types, are as follows:

1. Metropolitan—Municipalities of over 250,000 population.

2. Cities—Municipalities of 50,000 to 250,000 population.

3. Suburban—Municipalities under 50,000 and unincorporated jurisdictions in SMSA counties.

4. Non-Suburban—Incorporated jurisdictions under 50,000 in non-SMSA counties

5. Rural—Unincorporated jurisdictions in non-SMSA counties.

These five major Community Types can be compared directly, one against the other, or further reduced to their lowest common population grouping, to compare each Community Type internally. This method of grouping population entities fits well with the system used by the FBI in dividing the population types in the United States, and provides a common base for development of all future statistics on crime information. Although the primary emphasis of all future crime analyses will be made on the basis of the five Community Types, there will be occasions when other population groupings will more readily fit the analysis criteria. Generally speaking, these additional needs can be met by dividing the state into zones, based on a social and economic likeness of individuals within, and then splitting these groups into Community Types or counties for the final analysis. It is felt that additional research may reveal additional or more precise grouping patterns.

CLASSIFICATION AND LISTING OF UCR OFFENSES

Offense data consists of information that has been extracted from reports of Part I crimes that have come to the attention of Florida law enforcement agencies. They consist of the following offenses:

1A. **Murder and Non-negligent Manslaughter**—The willful (non-negligent) killing of a human being by another.

1B. **Manslaughter by Negligence**—The killing of a human being through gross negligence of another.

2. **Forcible Rape**—The carnal knowledge of a female forcibly and against her will.

3. **Robbery**—The forcible taking of the property of another, against his will, by violence and/or putting him in fear.

4. **Aggravated Assault**—An attempt or offer, with unlawful force or violence, to do aggravated bodily injury to another.

5. **Breaking and Entering—Burglary**—An unlawful entry or attempted forcible entry of any structure to commit a felonly or theft.

6. **Larceny (Except Motor Vehicle Theft)**—The unlawful taking of the property of another.

7. **Motor Vehicle Theft**—The theft or attempted theft of a motor vehicle.

Part II offenses are made up of all other crimes not classified as Part I crimes. Information on Part II offenses is reported only when an arrest has been made. Part II crimes for UCR purposes are as follows:

8. **Other Assaults—Not Aggravated**—Assaults and attempted assaults which are simple and minor in nature.

9. **Arson***—Willful or malicious burning with or without intent to defraud. Includes attempts.

10. **Forgery and Counterfeiting**—Making, altering, uttering or possessing, or attempts to make, alter, utter or possess with intent to defraud. Anything false which is made to appear true.

11A. **Fraud**—Fraudulent conversion of another's money or property by false pretenses.

11B. **Worthless Checks**—Fraudulent conversion through bad checks—excludes forgery and counterfeiting.

12. **Embezzlement**—Misappropriation or misapplication of money or property entrusted to one's care, custody or control.

13. **Stolen Property**—All offenses of buying, receiving and possessing stolen property, as well as all attempts to commit any of these offenses.

14. **Vandalism**—Willful or malicious destruction, injury, disfigurement or defacement of property without consent of the owner or persons having custody or control.

15. **Weapons: Carrying, Possession, etc.**—All violations of regulations or statutes controlling the carrying, using, possessing, furnishing and manufacturing of deadly weapons or silencers and all attempts to commit any of the offenses.

16. **Prostitution and Commercialized Vice**—Sex offenses of a commercialized nature, such as prostitution, keeping a bawdy house, procuring or transporting women for immoral purposes, and all attempts to commit any of these offenses.

17. **Sex Offenses (Except Forcible Rape, Prostitution, and Commercialized Vice)**—Statutory rape, offenses against chastity, common decency, morals and the like. Includes attempts.

18. **Narcotic Drug Laws**—Includes all arrests for violations of State and Local Ordinances, specifically those relating to the unlawful possession and sale of narcotic drugs.

19. **Gambling**—Promoting, permitting or engaging in gambling.

20. **Offenses Against the Family and Children**—Nonsupport, neglect, desertion or abuse of family and children.

21. **Driving Under the Influence**—Driving or operating any motor vehicle while drunk or under the influence of liquor or drugs.

22. **Liquor Laws**—State or local liquor law violations, except "drunkenness" and "driving under the influence".

23. **Disorderly Intoxication**—Drunk and disorderly.

24. **Disorderly Conduct**—Breach of peace. (Disorderly persons).

26. **All Other Offenses (Except Traffic)**—All violations of state and local laws except classes 1–24 and 28–29.

28. **Curfew and Loitering Laws (Juveniles)**—Offenses relating to local curfew or loitering ordinances, where such laws exist.

29. **Runaway (Juveniles)**—Limited to juveniles taken into protective custody who have run away from the reporting jurisdiction.

EXPANDED DATA COLLECTION PROGRAM

During the past four years, several special data collection programs have been implemented in which data is forwarded to the UCR Program on a voluntary basis. These programs involve the collection of drug seizure data, agricultural crime information, and victim data.

Enacted legislation in Florida in October, 1979, placed a requirement for mandatory sentencing for convictions based on large quantity possession and sale of various narcotics and other controlled substances. The narcotics drug survey form is a means whereby pertinent data can be collected on specified large volume drug-related offenses to provide input as to the nature and magnitude of these operations in the State of Florida. Seizures are voluntarily reported by all law enforcement agencies within that county. Federal seizures with no local or state participation are not included.

---

*Arson is a Part I crime but is not considered an Index Crime.

Studies in 1980 showed that agricultural crime accompanied by high property losses was increasing, which resulted in a great concern by state and local law enforcement agencies throughout Florida. The Florida Department of Law Enforcement's UCR Program, working in conjunction with the Attorney General's Ad Hoc Committee on Agricultural Crime, developed a form which requests incident and property data relating solely to agricultural crime. Since almost all agricultural crime occurs in the rural areas of the state, the survey form was sent only to the county sheriff's offices. Agricultural crime data is submitted to the UCR Program on a voluntary basis for compilation and analysis.

Legislation passed in 1977 provided the origin and impetus for development of a system designed to collect data on the victims of crime in Florida. An 18 month study was conducted in which victim data was collected from 38 agencies randomly selected for the period from July 1, 1981 through June 30, 1982. Various victim characteristics were collected on the seven index offenses plus arson, simple assaults, fraud, vandalism and other sex offenses. After the completion of this program, modifications were made to existing UCR programs to allow the collection of data on victims of rapes and assaults. Presently, victim characteristics are collected from those agencies who voluntarily submit data on these two offenses.

Detailed information is provided in this publication on the drug seizure, agricultural crime, and victim data collection programs.

RECENT DEVELOPMENTS

The Bureau of Justice Statistics, U.S. Department of Justice, will undertake a comprehensive study of the National UCR Program through a three-year 1.5 to 2.0 million dollar grant. The purpose of the study will be to develop a methodology for improving UCR to make it a more effective instrument for use in the measurement of crime in the United States. One area of interest that the study will consider is the determination of population criteria. This will be especially important to the Florida UCR Program since many tourists visit the state each year.

SURVEY RESULTS

A survey form was included with each issue of the 1982 annual report, *Crime In Florida,* to obtain information from users regarding how the publication best met their needs. It asked for suggestions in format changes of present data layout, which would enhance the usefulness of the report. A total of 1,512 surveys were mailed with 390 returned. This represented a 25.8 percent response rate. Law enforcement agencies contributing to UCR returned the largest number of surveys.

The survey results indicated that the publication is used quite extensively for preparation of "in-depth" reports. The type of information used most often was the numerical tables with actual counts and percentages for the individual agency and county listings. Most people thought that *Crime In Florida* was a well-prepared document presenting the reported crime occurring in Florida. Many labeled the book as "excellent." The largest number of respondents believed that ten-year trends of statewide data for offenses and arrests would provide valuable information on past crime trends. In response to this need, ten-year trends of offense and arrest data are found on pages 36–37. Another area where suggestions were made was the inclusion of crime projections. In response, a section regarding index crime projections for 1984 are found on pages 43 through 49.

UCR USAGE

There are inherent limitations in current crime reporting practices. Of primary importance is the question of how much crime is being reported. Law enforcement agencies are only capable of reporting crimes known to them. In many instances, citizens do not report crimes directly to these agencies but may report them to the prosecuting authorities. A considerable volume of crime is not reported to law enforcement agencies because the victims may consider the offenses against them to be of very little consequence; they believe there is nothing the police can do about them; they fear retaliation from offenders or have shared willingly in such offenses as illegal sex acts, gambling or drug usage. Consequently, information concerning some offenses is never entered in the present statistical reporting system.

Furthermore, only arrest data is submitted on Part II crimes, therefore, current UCR statistics do not necessarily measure the true incidence of crimes or the actual economic loss incurred by victims.

Crimes and arrests should not be compared on a one-to-one basis, as a crime is an event and an arrest relates to an individual. For example, several crimes may be solved by one arrest or many persons can be arrested for committing one crime.

Crime clearances, the value of property stolen and recovered, and arrests, reflect the current year's activity and will include data related to crimes reported in prior years.

SUMMARY

Set forth below are some additional conditions which will, by type and volume, affect the crime that occurs from place to place. These same conditions will also affect the amount of crime actually reported.

1. Density and size of the community population and the metropolitan area of which it is a part.
2. Composition of the population with reference particularly to age, sex and race.
3. Economic status and mores of the population.
4. Relative stability of population including commuters, seasonal, and other transient types.
5. Climate, including seasonal weather conditions.
6. Educational, recreational, and religious characteristics.
7. Effective strength of the police force.
8. Standards governing appointment to the police force.
9. Policies of the prosecuting officials and the courts.
10. Attitude of the public towards law and enforcement problems.
11. The administrative and investigative efficiency of the local law enforcement agency including the degree of adherence to crime reporting standards.

The information collected for this report portrays the most accurate and realistic assessment available of the crime situation in Florida. UCR statistics are not designed as an indicator of agency activity for use in direct comparisons but pertain to specific geographic area. A casual relationship exists between crime and a great many socio-economic factors, although presently no definite theories exist. However, reported crime activity is a measurable quantity and, as such, should be used to present the clearest possible picture of the dimensions, fluctuations,and impact of crime in the State of Florida.

UCR SYSTEM FLOW

The Uniform Crime Reports Program of the Florida Department of Law Enforcement is continuously dedicated to the goal of providing complete, reliable, and accurate statistical data on crime in Florida. The following systems flow chart shows the procedures used by the UCR staff to handle data received from contributing agencies.

Florida Offense Data Index Crime Analysis

1983 FLORIDA CRIME SUMMARY AND PRESS RELEASE

On March 29,1984, the Florida Department of Law Enforcement released its thirteenth Annual Florida Uniform Crime Report, reflecting a general overview of reported crime and related data during 1983.

CRIME VOLUME

The volume of reported index crimes (Violent: Murder, Rape, Robbery, Aggravated Assault; Nonviolent: Breaking and Entering—Burglary, Larceny, and Motor Vehicle Theft) decreased 6.9 percent from 1982.

• Total Volume	724,247 Index Crimes
• Time Frequency	1 Index Crime every 44 Seconds
• Population Frequency	1 Index Crime for every 15 Residents
• Most Notable Violent Index Crime Decrease	14.7 percent decrease in Murder
• Most Notable Nonviolent Index Crime Decrease	9.4 percent decrease in Breaking and Entering—Burglary

*CRIME RATE

The 1983 crime rate decreased to 68.4 index crimes for every 1,000 residents.

• Violent Crime Rate	decreased to 8.3 index crimes/1,000 residents
• Nonviolent Crime Rate	decreased to 60.0 index crimes/1,000 residents

***MODIFIED CRIME RATE*

The 1983 modified crime rate was 6.14 index crimes for every 1,000 residents.

• Violent Modified Crime Rate	7.5 index crimes/1,000 residents
• Nonviolent Modified Crime Rate	53.9 index crimes/1,000 residents

STANDARD METROPOLITAN STATISTICAL AREAS (SMSA) (See page 7 for definition)

• SMSA	
Total Index Crime	6.9 percent decrease
Violent Index Crime	5.8 percent decrease
Nonviolent Index Crime	7.0 percent decrease
• Non SMSA	
Total Index Crime	6.5 percent decrease
Violent Index Crime	1.5 percent decrease
Nonviolent Index Crime	7.1 percent decrease

COMMUNITY TYPES (See page 8 for definition)

Metropolitan Community Type	
Total Index Crime	8.3 percent decrease
Violent Index Crime	3.9 percent decrease
Nonviolent Index Crime	9.1 percent decrease
• City Community Type	
Total Index Crime	9.1 percent decrease
Violent Index Crime	9.9 percent decrease
Nonviolent Index Crime	9.0 percent decrease
• Suburban Community Type	
Total Index Crime	6.2 percent decrease
Violent Index Crime	5.1 percent decrease
Nonviolent Index Crime	6.3 percent decrease
• Non-Suburban Community Type	
Total Index Crime	5.2 percent decrease
Violent Index Crime	4.1 percent decrease
Nonviolent Index Crime	5.4 percent decrease
• Rural Community Type	
Total Index Crime	7.5 percent decrease
Violent Index Crime	0.7 percent increase
Nonviolent Index Crime	8.5 percent decrease

ARSON

• Total Volume Reported	9.0 percent decrease
• Value of Property Destroyed	$28,876,280
• Most Frequent Location	single occupancy, residential

---

* Rates do not include transient population totals.

** Refer to page 16 for explanation of modified crime rate.

*POPULATION

Florida's population increased 2.1 percent in 1983. This reflected a population density of nearly 196 people per square mile.

• SMSA Population	2.0 percent increase
• Non SMSA Population	3.0 percent increase

VALUE OF PROPERTY STOLEN

The dollar loss of reported property stolen reveals a 0.3 percent increase to a total of $570,548,290. Law enforcement agencies recovered 22.2 percent of the loss, or $126,752,711.

CLEARANCE RATE

• Index Crime Clearance Volume	166,333 Crimes Cleared
• Total Index Clearance Rate	23.0 percent
• Violent Index Crime Clearance Rate	52.3 percent
• Nonviolent Index Crime Clearance Rate	18.9 percent

ARRESTS

Criminal arrests in Florida increased 2.1 percent.

• Index Crime Arrests	3.7 percent decrease
• Index Crime Arrests Volume	140,421
• Total Arrest Volume	534,051
• Narcotic Drug Law Violation Arrests	5.0 percent increase
• Age Breakdown of Total Arrests	
Under age of 15	5.0 percent
Under age of 18	13.8 percent
Under age of 21	26.8 percent
Under age of 25	44.7 percent
• Adult Arrests	
Total Arrests	3.0 percent increase
Part I Offense Arrests	2.7 percent decrease
Part II Offense Arrests	4.8 percent increase
• Juvenile Arrests	
Total Arrests	3.2 percent decrease
Part I Offense Arrests	6.3 percent decrease
Part II Offense Arrests	0.3 percent increase

LAW ENFORCEMENT OFFICERS KILLED

There were five Florida Law Enforcement officers and one Correctional officer killed in the line of duty during 1983

LAW ENFORCEMENT OFFICERS ASSAULTED

• Total Assaults	0.2 percent increase
• Total Volume of Assaults	6,044
• Percent of Assaults with Personal Injury	21.4 percent
• Percent Assaults without Personal Injury	78.6 percent

RATIO OF LAW ENFORCEMENT EMPLOYEES

As of October 31,1983, the number of full-time law enforcement employees (sworn and civilian) in Florida increased 6.0 percent over 1982 to 33,163. In 1983, there were 20,826 sworn officers in Florida, the rate per 1,000 residents was 2.0 sworn officers, reflecting an increase of 5.3 percent over the 1982 rate. This does not include state law enforcement agencies, university and county school police, airport police, and the Seminole Indian Reservation.

**DRUG SEIZURES

• Total Seizures	15.7 percent decrease
• Total Amount Seized	52.4 percent decrease
• Total Arrests	31.7 percent decrease
• Value of Property Confiscated	61.9 percent decrease

***AGRICULTURAL CRIME

• Total Volume	21.0 percent decrease
• Highest Targeted Area	Products and Lands
• Most Frequent Type of Crime	Thefts
• Total Property Loss	$1,210,911

---

*This does not include transient population.

**Drug seizure data is reported voluntarily by local law enforcement agencies and does not include seizures made exclusively by Federal agencies.

***Agricultural crime is reported voluntarily by County Sheriff's Offices.

MODIFIED CRIME RATES USING TOURIST POPULATION DATA

Since 1930, when the Uniform Crime Reports program was undertaken, the method used to try to display crime data in an equitable manner has been based on the population of an agency's jurisdiction. The rates as calculated, provide agencies with the capability of measuring the current magnitude of the crime problem that exists in their jurisdiction, as it relates to the number of people living there.

These rates to not take into account the variety of other factors which will cause changes in reported crime from location to location. Tourism, as an example, is a major industry in Florida; however, the tourist population is not included in census counts or the crime rate.

At the present time, no accurate method is available for determining where these individuals are located and how long their visit will be. Thus, rates including tourists cannot be calculated for individual law enforcement jurisdictions. However, the Florida Division of Tourism does provide a state average of the number of days spent in Florida broken down by auto and air visitors. Also, it is obvious that certain events and attractions bring a large number of visitors to various communities at different periods of time. For example, Volusia County has a large volume of people in the county during the Daytona 500 Automobile Race and the college spring break. Fort Lauderdale has large numbers of persons during Easter and spring breaks. Additionally, with several major attractions in Florida, many people visit other areas at different times of the year, and some individuals from northern U. S. cities and Canada reside in central and southern Florida during the winter season.

Another group of transient persons that has had a significant effect on Florida's population are the Haitians and Cubans who have entered the United States. This problem, for the most part, is centered in southern Florida, particularly in Dade County.

Further study and research is being conducted in the use of tourist population data in computing modified rates for various aspects of crime in Florida. If further research shows that it is possible to obtain transient figures for specific locales, modified rates may be calculated for individual agencies throughout the state for inclusion in future editions of the annual report, *Crime In Florida.*

The modified crime rate is shown for each county on the next page along with other pertinent data.

To calculate the standard crime rate, the number of index offenses is divided by a particular county's population and then multiplied by 100,000. This gives a crime rate per 100,000 persons. For obtaining a modified crime rate, the only difference is that the average daily number of tourists is added to a particular county population. The computation for the modified rate is then made in the same manner as the conventional crime rate. The arrest rate is calculated similarly, except that the number of arrests is used.

FLORIDA MODIFIED CRIME AND ARREST RATES[1]
1983

Type	Modified Rate[2]	Standard Calculation of Rate
Crime Rate	6,137.7	6,837.9
Arrest Rate	4,525.9	5,042.2

FDLE TABLE

---

[1] Estimates for arriving at a modified population total using the number of visitors were obtained from the Florida Division of Tourism.

[2] The modified crime and arrest rates are computed using the actual number of visitors and not by multiple visit counts.

MODIFIED CRIME RATE

COUNTY TOTALS—1983

County	Population	Crime Rate[1]	Total Visitors[2]	Average Daily Visitors[3]	Modified Crime Rate[4]
Alachua	162,404	7,486.3	273,665	10,088	7,048.4

TOTAL for Florida	**10,591,701**	**6,837.9**	—	—	**6,137.7***

---

[1] This is the standard crime rate as calculated historically and shown elsewhere in this publication. It includes all reporting jurisdictions in each county and the associated total population.

[2] The total of this column will exceed the total visitors to the State because of multiple county visits by some individuals.

[3] Data in this column are prepared by multiplying the number of days spent in Florida by auto visitors (13.9 days) and air visitors (10.0 days), adding the two numbers together, and dividing by 365 to arrive at an average number per day.

[4] The average daily number of visitors is added to the population and then the modified crime rate is calculated in the manner as explained on page 16.

[5] Includes Walt Disney World area.

* The statewide modified crime rate is computed by using 22,887,156 for auto visitors and 12,288,049 for air visitors and then applying the method as explained in footnote 3.

FLORIDA CRIME TRENDS
1979–1983

INDEX OFFENSES	Year	Number of Offenses	Percent Change	Rate Per 100,000 Population*	Percent Change	Percent Cleared
MURDER	1979	1,084	—	11.7	—	71.3
	1980	1,387	+ 28.0	14.5	+ 23.9	64.7
	1981	1,523	+ 9.8	15.1	+ 4.1	61.2
	1982	1,410	− 7.4	13.6	− 9.9	67.7
	1983	1,203	− 14.7	11.4	− 16.2	70.7
FORCIBLE RAPE	1979	4,573	—	49.5	—	51.4

FDLE CHART

FLORIDA CRIME INDEX

The figures presented in the tables, graphs, and charts in this publication indicate the volume, fluctuation, and distribution of crime in Florida on the basis of a Crime Index. These crime figures are categorized by municipal, county, statewide, SMSA and Judicial Circuit totals. The seven offenses comprising the Index Crimes are:

- Murder
- Forcible Rape
- Robbery
- Aggravated Assault
- Breaking and Entering—Burglary
- Larceny
- Motor Vehicle Theft

These crimes were selected for use as an index on the basis of their serious nature, their frequency of occurrence, and the reliability of reporting from citizens to law enforcement agencies. The Crime Index is used as a basic measure of crime. The Crime Index is the total number of Index Crimes that comes to the attention of law enforcement agencies. During the year 1983, a total of 724,247 index offenses were reported. This represents a decrease of 53,270 offenses, or a 6.9 percent decrease from 1982.

In reviewing crime index figures the reader should keep in mind that there is currently no way of determining the total number of actual crimes committed. The Crime Index has been established to measure only the instances of crime which come to the attention of law enforcement agencies. However, to be a true index, its relationship to total crime reported or unreported must be known. This relationship unfortunately has never been conclusively established, and therefore, fluctuations in the Crime Index may or may not adequately reflect changes in the total crime picture. It is important to remember in reviewing the tables and graphs in this report that the volume of crime in a given area or municipality is directly related to the crime factors previously listed in this report.

VOLUME AND DISTRIBUTION OF CRIME INDEX OFFENSES

The Crime Index merely identifies the number of actual incidents known to law enforcement agencies, not the number of criminals who committed them or the number of injuries they caused. The seven Crime Index offenses are grouped into two categories—violent crimes and nonviolent crimes.

Violent Crime

Crimes of violence include murder, forcible rape, robbery, and aggravated assault. Violent crimes involve the element of personal confrontation between perpetrator and victim and, because of their very nature, are more serious than nonviolent crimes. These offenses for the year 1983 made up 12.2 percent of all reported index offenses. For the year 1983, violent crimes as a group dropped 5.5 percent from 1982.

Nonviolent Crime

For Uniform Crime Reports purposes, nonviolent crimes include the offenses of breaking and entering—burglary, larceny, and motor vehicle theft. The number of nonviolent crimes reported for 1983 was more than 7 times the number of violent crimes, amounting to 87.8 percent of all Index Crimes reported. Nonviolent crimes as a group recorded a decrease of 7.0 percent from the number reported for the year 1982.

VALUE OF PROPERTY STOLEN AND RECOVERED

Supplementary data relating to the crimes of murder, forcible rape, robbery, breaking and entering—burglary, larceny, and motor vehicle theft is collected and analyzed. The resultant figures provide information concerning the value of property stolen and recovered by type of property. The total value of property stolen in Florida during 1983 was $570,548,290. This amounts to an increase of $1,937,010, or an increase of 0.3 percent from the year 1982. Law enforcement agencies were successful in recovering 22.2 percent of the loss, or $126,752,711. Locally stolen motor vehicles accounted for the highest dollar loss, amounting to $184,451,077 for 1983. This figure represents an increase of 2.1 percent from 1982.

CRIME RATES*

The crime rate equals the number of Index Crimes per unit of population, generally per 100,000. It should be noted that the crime rate only takes into consideration the numerical factor of population and does not incorporate any of the other elements which contribute to the amount of crime in a given community. The effect of changes in population on rates should be kept in mind when attempting to make a comparison of crime rates.

*Rates do not include transient population totals.

The Crime Index rate for Florida for the year 1983 is 6,837.9 offenses per 100,000 inhabitants, an 8.8 percent decrease from the year 1982.

For the year 1983, violent crimes accounted for 833.7 offenses per 100,000 population, while the nonviolent crime rate amounted to 6,004.2 offenses per 100,000 population, reflecting a rate decrease of 7.4 percent for violent crimes and an 8.9 percent decrease for nonviolent crimes.

CLEARANCE RATES

For crime reporting purposes, a crime index offense is cleared when a law enforcement agency has identified the offender, there is enough evidence to charge him and he is actually taken into custody. The arrest of one person can clear several crimes or several persons may be arrested in the process of clearing one crime.

Crime solutions are also recorded in exceptional circumstances when some element beyond law enforcement control precludes formal charges against the offender.

For 1983, 23.0 percent of all Index Crimes were cleared. The percentage of violent crimes cleared was 52.3 percent, while the clearance rate for nonviolent crimes was 18.9 percent. This compares with a 1982 total clearance rate of 22.4 percent and violent crime and nonviolent crime clearance rates of 50.7 and 18.6 percent, respectively.

NON-INDEX OFFENSES

Three offense classifications of reported crime do not fall into the makeup of the Index Crimes. These offenses are manslaughter by negligence, simple assault and arson. In 1983, there were 21 non-traffic manslaughters by negligence; 20 of the 21 non-traffic manslaughters were cleared by arrest or exceptionally cleared.

There were 76,911 simple assaults reported for the year 1983 in Florida. Of these offenses, 50,004 or 65.0 percent, were cleared by arrest or by exception. Of these 50,004 total clearances, 90.7 percent were cleared through the involvement of persons aged 18 and above, while the other 9.3 percent involved persons aged 17 and under.

During 1983, there were 3,244 offenses of arson reported with $28,876,280 in property damage. The highest single category of arson, 1,024 reported, was single occupancy residential. Of the 3,244 arsons reported, only 432 or 13.3 percent were arsons of abandoned structures. The clearance rate for arson was 21.8 percent. There were 1,315 reported arsons of all types of residences, 689 of commercial structures and 786 of motor vehicles. The remaining 454 arsons were of other structures, other mobile property and miscellaneous.

MURDER

(See page 9 for definition)

1983—SUMMARY ANALYSIS

A total of 1,203 murders was reported by law enforcement agencies in Florida for the year 1983.

Murders accounted for 1.4 percent of all violent crimes and 0.2 percent of all index offenses reported.

The murder rate for the reporting period was 11.4 per 100,000 population.

There were 850 murders cleared by arrest or exceptionally cleared, amounting to a 70.7 percent clearance rate statewide.

The age group of 25–29 accounted for 19.5 percent of persons arrested for murder. Males accounted for 86.2 percent of all persons arrested for murder.

Of all persons arrested for murder, 50.5 percent were white, 49.3 percent were black and 0.2 percent were of other races.

Of all murder victims 59.7 percent were white, 39.4 were black and 0.9 percent of the other races were murdered. Of all murder victims, males represented 73.6 percent.

Firearms were employed in 47.5 percent of all reported murders. The use of a knife or other cutting device was involved in 18.3 percent of the murders.

The murder of one family member by another accounted for 187 or 15.5 percent of all murders. Of these, 113 murders or 60.4 percent resulted from one spouse killing the other.

Altercations or quarrels between the victim and perpetrator, including money quarrels, lovers' quarrels and drinking quarrels, accounted for 15.6 percent of all murders reported during the year 1983. Lovers quarrels recorded the highest involvement, accounting for 8.7 percent of the total murders.

FDLE TABLE

FORCIBLE RAPE

(See page 9 for definition)

1983—SUMMARY ANALYSIS

A total of 5,170 forcible rapes (including attempts) was reported by law enforcement agencies in Florida for the year 1983. Of all rapes, 3,952 were by force and 1,218 were attempted rapes.

Forcible rapes accounted for 5.9 percent of all violent crimes and 0.7 percent of all index offenses reported.

The forcible rape rate for the year 1983 amounted to 48.8 rapes for every 100,000 persons in the state.

There were 2,850 forcible rapes cleared by arrest or exceptionally cleared, amounting to a 55.1 percent clearance rates statewide.

Of the reported arrests for forcible rape during the year 1983, 44.7 percent were of persons under the age of 25.

Of all persons arrested for forcible rape during the year 1983, 48.3 percent were white, 51.6 percent were black and 0.1 percent were of other races.

FDLE TABLE

ROBBERY

(See page 9 for definition)

1983—SUMMARY ANALYSIS

A total of 28,127 robberies was reported by law enforcement agencies in the State of Florida for the year 1983.

Robberies accounted for 31.9 percent of all violent crimes as a group and 3.9 percent of the total crime index.

The robbery rate amounted to 265.6 robberies for every 100,000 persons in the state.

There were 6,927 robberies cleared by arrest or exceptionally cleared, representing a clearance rate of 24.6 percent statewide.

The age group 25–29 accounted for 18.7 percent of persons arrested for robbery. Males accounted for 93.8 percent of all persons arrested for robbery.

Of all persons arrested for robbery, 36.4 percent were white, 63.6 percent were black and 0.0 percent were of other races.

The largest number of actual offenses of robbery, 14,496 in number, occurred under the Highway category, which represents 51.5 percent of all offenses of robbery reported during 1983. The armed robber was responsible for over 53.6 percent of the reported offenses.

The value of property stolen in actual offenses of robbery totaled $32,432,793 or 5.7 percent of the total value of property stolen during the year. The highest average loss, amounting to $6,994, occurred in bank robberies. The lowest average loss, $255, occurred in convenience store robberies.

FDLE TABLE

AGGRAVATED ASSAULT

(See page 9 for definition)

1983—SUMMARY ANALYSIS

A total of 53,798 aggravated assaults was reported by law enforcement agencies for the year 1983.

Aggravated assaults accounted for 60.9 percent of all violent crimes and 7.4 percent of all index crimes reported.

The rate of aggravated assaults amounted to 507.9 assaults for each 100,000 persons.

There were 35,572 aggravated assaults cleared by arrest or exceptionally cleared, which represents a clearance rate of 66.1 percent statewide.

Persons under the age of 30 accounted for 58.6 percent of the arrests for aggravated assault. Arrests of males for aggravated assault outnumbered females by a 6-to-1 margin.

Analysis of aggravated assault arrests by race indicates that 54.9 percent or all persons arrested were white, 45.0 percent were black and 0.2 percent were of other races.

The use of firearms represented 14,522 offenses and comprised 27.0 percent of all aggravated assaults.

BY TYPE OF WEAPON USED

FDLE TABLE

BREAKING AND ENTERING—BURGLARY

(See page 9 for definition)

1983—SUMMARY ANALYSIS

A total of 191,911 burglaries was reported by law enforcement agencies for the year 1983.

Burglaries accounted for 30.2 percent of all nonviolent crimes and 26.5 percent of all index offenses reported.

The burglary rate for the reporting period was 1,811.9 per 100,000 population.

There were 32,701 burglaries cleared by arrest or exceptionally cleared. This amounts to a clearance rate of 17.0 percent statewide.

The age group accounting for the highest percentage of persons arrested for burglary, 13.2 percent, occurred in the 25–29 age category. Males accounted for 94.6 percent of persons arrested for burglary.

Of all persons arrested for burglary, 64.2 percent were white, 35.6 percent were black and 0.2 percent were of other races.

Of the three categories of burglary, forcible entry was the most prevalent, with 142,916 offenses. This figure represents 74.5 percent of the total burglaries committed. Unlawful entry (no force) accounted for 16.5 percent, while 9.0 percent were attempts.

The value of property stolen in actual offenses of burglary totaled $179,923,958 or 31.5 percent of the total value of property stolen during the year.

Residential burglaries accounted for 64.2 percent of the total offenses reported, with a total dollar loss of $112,322,511. Where time could be determined, 46.1 percent of residential burglaries occurred during the night hours.

LARCENY

(See page 9 for definition)

1983—SUMMARY ANALYSIS

A total of 400,802 larcenies was reported by law enforcement agencies for the year 1983.

Reported larcenies accounted for 63.0 percent of nonviolent crimes and 55.3 percent of all index offenses reported.

The larceny rate for Florida for the year amounted to 3,784.1 per 100,000 population.

There were 78,320 larcenies cleared by arrest or exceptionally cleared. This represents a clearance rate of 19.5 percent statewide.

The age group of 25 to 29 years was responsible for 13.5 percent of persons arrested for larceny. Males accounted for 71.3 percent of persons arrested for all categories of larceny.

Of all persons arrested for larceny, 63.0 percent were white, 36.8 were black and 0.3 percent were of the other races.

During the year 1983, the value of property stolen in actual offenses of larceny totaled $179,768,179. This constitutes 31.5 percent of the total value of property stolen.

MOTOR VEHICLE THEFT

(See page 9 for definition)

1983—SUMMARY ANALYSIS

A total of 43,236 motor vehicle thefts was reported by law enforcement agencies in Florida during 1983.

Motor vehicle thefts made up 6.8 percent of all nonviolent crimes and 6.0 percent of all index offenses reported.

The statewide motor vehicle theft rate for the year amounted to 408.2 per 100,000 population.

There were 9,113 motor vehicle thefts cleared by arrest or exceptionally cleared, representing a clearance rate of 21.1 percent statewide.

The age group responsible for the highest percentage of persons arrested for motor vehicle theft, 14.8 percent, occurred in the 25- to 29-year-old age category. Of all persons arrested for motor vehicle theft, 90.5 percent were males.

Of all persons arrested for motor vehicle theft, 73.4 percent were white, 26.3 percent were black and 0.3 percent were of other races.

The average value of a motor vehicle theft during the reporting period was $4,118.

Motor vehicles reported stolen during the commission of any Part I offense totaled $184,451,077; $88,698,525 was recovered which constitutes a 48.1 percent recovery rate in value. Of the total number of motor vehicles recovered, 69.4 percent had originally been stolen from the same jurisdiction.

FDLE TABLE

ARSON

(See page 9 for definition)

1983—SUMMARY ANALYSIS

A total of 3,244 arsons was reported by Florida law enforcement agencies for the year 1983.

The number of arsons committed per 100,000 persons was 30.6.

There were 706 arsons cleared by arrest or exceptionally cleared. This represents a statewide clearance rate of 21.8 percent.

The age group accounting for the highest percentage of persons arrested for arson was the 25–29 bracket with 12.6 percent. Of all persons arrested for arson, 84.4 percent were males.

Of all persons arrested for arson, 73.8 percent were white, 25.8 percent were black and 0.4 percent were of other races.

Of all property classifications, single occupancy residential accounted for the largest number of arsons with 1,024 offenses or 31.6 percent of all arsons. The percentage of arsons involving structures was 64.8 percent as compared to 26.3 percent for mobile property. The remaining percentage involved destruction of crops, timber, signs and other miscellaneous property. Offenses involving uninhabited structures were 432 or 13.3 percent of all arsons.

The value of property damaged by arson totaled $28,876,280. Other residential consisted of 3.8 percent of the total amount or $1,106,395. Mobile property consisted of 14.2 percent of the total amount damaged or $4,087,023.

FDLE CHART

Index Crime Projections For 1984

INDEX CRIME PROJECTIONS
1984

The Index Crime projections shown in this section are estimates computed by a Least-Squares Linear Regression Method. The algebraic formula for linear regression is $Y = a + bX$. This enables one to determine "Y" (the incidence of crime) from the relative slope of a line "*b*".

The volume of crime for 1984 for the total crime index, total violent, total nonviolent, and each individual index offense have been projected from the actual number of reported offenses for each year since 1979. The actual crime counts are plotted for each year from 1979 through 1983 above the solid line. A projected range at the 90 percent confidence level has been calculated for each category and is shown as an upper and lower value for the volume of crime and the percent change expected for 1984 over 1983 in the gray area on the right hand side of each graph. At the 90 percent confidence level, a specific percent change outside of the projected range could be expected to occur only 10 times out of 100. Volumes occurring outside the range represent a significant change, and further research is suggested for determining possible influencing crime factors responsible for the directional change.

- Baker
- Bradford
- Gilchrist
- Levy
- Union

NINTH JUDICIAL CIRCUIT
- Orange
- Osceola

TENTH JUDICIAL CIRCUIT
- Hardee
- Highlands
- Polk

ELEVENTH JUDICIAL CIRCUIT
- Dade

TWELFTH JUDICIAL CIRCUIT
- DeSoto
- Manatee
- Sarasota

THIRTEENTH JUDICIAL CIRCUIT
- Hillsborough

FOURTEENTH JUDICIAL CIRCUIT
- Bay
- Calhoun
- Gulf
- Holmes
- Jackson
- Washington

FIFTEENTH JUDICIAL CIRCUIT
- Palm Beach

SIXTEENTH JUDICIAL CIRCUIT
- Monroe

SEVENTEENTH JUDICIAL CIRCUIT
- Broward

EIGHTEENTH JUDICIAL CIRCUIT
- Brevard
- Seminole

NINETEENTH JUDICIAL CIRCUIT
- Indian River
- Martin
- Okeechobee
- St. Lucie

TWENTIETH JUDICIAL CIRCUIT
- Charlotte
- Collier
- Glades
- Hendry
- Lee

Florida Judicial Circuits, as outlined on the map, are listed on the following pages with corresponding offense data.

*The offense data reflected in this publication is by geographic jurisdiction and is not intended to depict an individual law enforcement agency's activity. Included in the unincorporated areas are those incorporated jurisdictions who report this information to the law enforcement agency responsible in that geographic jurisdiction. The totals reflect all UCR data submitted on crime activity occurring within that Community Type, except that activity as reported by state law enforcement agencies.

**Comparable data not available for prior years.

Florida Arrest Data

FLORIDA ARREST INFORMATION

The Florida Uniform Crime Reports Program requires the periodic reporting of data concerning persons arrested in the state. A record of total arrest activity for criminal acts in both Part I and Part II crime classes is received from contributing agencies in Florida and is analyzed and arranged according to age, sex, race and residency of persons arrested. Traffic arrests, except driving under the influence, are not reported. A total of 534,051 arrests for Part I and Part II criminal acts were reported during the year 1983, up 2.1 percent from the 523,005 arrests reported for the year 1982. Based on 1983 population estimates, this amounts to a statewide arrest rate for the year 1983 of 5,042.2 arrests for each 100,000 persons in Florida.

A person is counted each time he is arrested or summoned. It should be kept in mind that the volume of arrests may vary from time to time due to differences in local arrest procedures and policies. A juvenile is counted as "arrested" when the circumstances are such that if he or she were an adult, an arrest would be counted or when law enforcement or other official action such as an interview, warning or admonishment is taken.

When reviewing arrest figures it should be remembered that arrest counts do not reflect the specific number of persons arrested since one individual person may be arrested several times during any given year for the same or different offenses. This occurs frequently for such crimes as disorderly intoxication, disorderly conduct and similar violations. However, arrest data is useful in measuring the extent of law enforcement activity in a given geographical area as well as providing an index for measuring involvement in criminal acts by the age, sex, race and residence of the perpetrators.

Analysis of reported arrests for the year 1983 indicates that 26.3 percent of all arrests during the year were for Part I offenses (murder, manslaughter, forcible rape, robbery, aggravated assault, breaking and entering—burglary, larceny and motor vehicle theft). Arrests for larceny comprised the highest percentage of arrests for Part I crimes, amounting to 51.3 percent. The highest percentage of arrests for Part II offenses, excluding the all other category, was driving under the influence which constituted 17.5 percent.

VIOLENT CRIME ARRESTS

During the year, 107,989 arrests for crimes of violence (murder, forcible rape, robbery and aggravated assault) on a statewide basis amounted to 24.2 percent of all arrests for the Part I offenses and 6.4 percent of the total arrests for all offenses. Arrests for aggravated assault were the most frequent, representing 68.3 percent of the total arrests for violent crimes. During 1982, violent crime arrests amounted to 23.3 percent of all Part I arrests and 6.5 percent of all arrests.

NONVIOLENT CRIME ARRESTS

During the year, 106,349 arrests for nonviolent crimes (breaking and entering—burglary, larceny and motor vehicle theft) comprised 75.6 percent of all Part I arrests and 19.9 percent of all arrests reported during the year 1983. The highest percentage of nonviolent crime arrests, 67.9 percent, occurred in the larceny category. During 1982, nonviolent crime arrests amounted to 76.5 percent of all Part I arrests and 21.4 percent of all arrests.

NONRESIDENT ARRESTS

Upon arresting an offender for a criminal violation committed within a community, the responsible law enforcement agency may find that the perpetrator's residence is in another community or even another state. The Florida Uniform Crime Reports Program provides for the collection of residency data of those arrested in order to measure the criminal mobility factor in Florida.

It was found that during 1983, of the total arrests reported by county and municipal law enforcement agencies for their respective jurisdictions, 4.8 percent of those arrested resided outside the State of Florida and 9.0 percent resided in a county (within Florida) other than the one in which the offense was committed.

The total volume of out of state resident arrests for the year 1983 decreased by 16.9 percent, while out of county resident arrests increased by 5.4 percent over the year 1982.

The highest percentage of nonresident arrests reported during the year occurred in the motor vehicle theft category for Part I offenses and the fraud category for Part II offenses, amounting to 22.1 percent and 21.7 percent, respectively.

AGE ANALYSIS

The distribution of those persons arrested by age categories during the year 1983 continues to illustrate the involvement in criminal activity by the youth of Florida. Nearly 5.0 percent of all persons arrested for the year were under the age of 15, 13.8 percent were under 18 and 26.8 percent of all persons arrested were under the age of 21.

An evaluation of reported Part I arrests indicates that 27.1 percent of persons arrested for such crimes were under the age of 18. The most frequent Part I juvenile arrests during the year were for larceny amounting to 54.9 percent of the total reported Part I juvenile arrests.

Total juvenile arrests for all offenses decreased by 3.2 percent from the reported figure for the year 1982. Adult arrests showed an increase of 3.0 percent from the figures for the year 1982.

Arrests of persons age 18 and over amounted to 86.2 percent of the total number of Part I and Part II arrests reported. Of the total adult arrests, 20.8 percent occurred in the 25 to 29 age group.

SEX AND RACE ANALYSIS

A percentage distribution by sex of all reported arrests for the year 1983, reveals that 83.2 percent of all persons arrested were male. Males were involved in 80.9 percent of all arrests for Part I offenses, with primary involvement in the crime of larceny. Total male arrests increased by 2.5 percent over the year 1982. The largest increase in male arrests for Part I offenses was registered in the forcible rape category, up 2.3 percent from the year 1982.

Female arrests amounted to 16.8 percent of the total arrests reported and 19.1 percent of all arrests for Part I offenses. Further evaluation of arrest data for Part I offenses discloses that females were primarily involved in arrests for larceny, accounting for 28.7 percent of the total arrests for this offense. Total female arrests increased by 0.03 percent over the year 1982. Part I female arrests registered the largest increase in the manslaughter category, up 26.9 percent over the year 1982.

An analysis of arrests for violent and nonviolent crime classes for the reporting period shows that 88.1 percent of all reported arrests for the violent crimes of murder, forcible rape, robbery and aggravated assault involved males. Females accounted for 11.9 percent of total violent crime arrests. Female arrests comprised 21.4 percent of the nonviolent crimes of breaking and entering—burglary, larceny and motor vehicle theft, while 78.6 percent of the nonviolent crime arrests for the year involved males.

A distribution analysis of total arrests by race for the year 1983 indicates that 72.1 percent of all arrested persons were white, 27.7 percent were black, with the remaining 0.2 percent of other races.

With regard to violent crimes within the Part I offenses (murder, forcible rape, robbery and aggravated assault), 50.1 percent of those arrested were white, 49.8 percent were black and the remaining 0.1 percent of other races.

A comparison of arrest data for the nonviolent crimes of breaking and entering—burglary, larceny and motor vehicle theft indicates that 63.8 percent of those arrested were white, 35.9 percent were black, with the remaining 0.3 percent of other races.

DISPOSITION OF JUVENILES

The Florida UCR Program requires that contributing agencies provide specific disposition information on all juveniles arrested. The UCR Program specifies five basic information categories for use by law enforcement agencies in reporting juvenile arrest dispositions. Juveniles may be *(1) handled within the department and released, (2) referred to juvenile court, juvenile authorities or probation department, (3) referred to a welfare agency, (4) referred to another law enforcement agency, or (5) referred to criminal or adult court.*

During the year 1983, on a statewide basis, approximately 69.7 percent of all juveniles arrested were referred to juvenile court or probation department, 26.6 percent were handled directly by law enforcement agencies and released, 0.6 percent were referred to welfare agencies, 2.8 percent were referred to criminal or adult court and the remaining 0.2 percent were referred to other law enforcement agencies for disposition.

FDLE TABLE

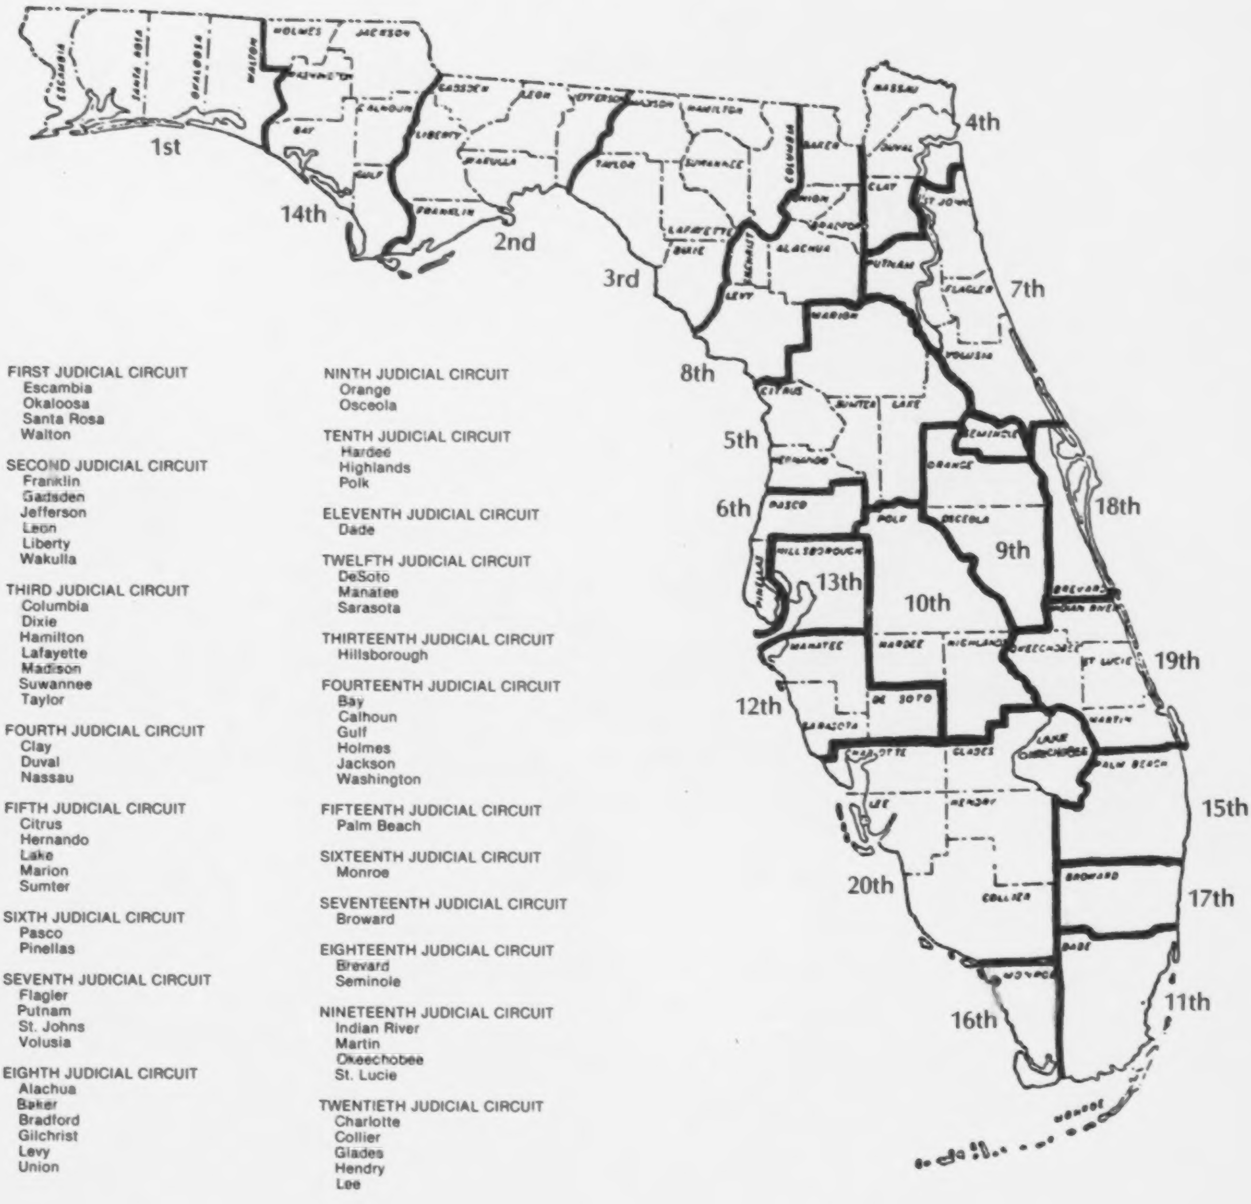
Judicial Circuit Arrest Data



FIRST JUDICIAL CIRCUIT
- Escambia
- Okaloosa
- Santa Rosa
- Walton

SECOND JUDICIAL CIRCUIT
- Franklin
- Gadsden
- Jefferson
- Leon
- Liberty
- Wakulla

THIRD JUDICIAL CIRCUIT
- Columbia
- Dixie
- Hamilton
- Lafayette
- Madison
- Suwannee
- Taylor

FOURTH JUDICIAL CIRCUIT
- Clay
- Duval
- Nassau

FIFTH JUDICIAL CIRCUIT
- Citrus
- Hernando
- Lake
- Marion
- Sumter

SIXTH JUDICIAL CIRCUIT
- Pasco
- Pinellas

SEVENTH JUDICIAL CIRCUIT
- Flagler
- Putnam
- St. Johns
- Volusia

EIGHTH JUDICIAL CIRCUIT
- Alachua
- Baker
- Bradford
- Gilchrist
- Levy
- Union

NINTH JUDICIAL CIRCUIT
- Orange
- Osceola

TENTH JUDICIAL CIRCUIT
- Hardee
- Highlands
- Polk

ELEVENTH JUDICIAL CIRCUIT
- Dade

TWELFTH JUDICIAL CIRCUIT
- DeSoto
- Manatee
- Sarasota

THIRTEENTH JUDICIAL CIRCUIT
- Hillsborough

FOURTEENTH JUDICIAL CIRCUIT
- Bay
- Calhoun
- Gulf
- Holmes
- Jackson
- Washington

FIFTEENTH JUDICIAL CIRCUIT
- Palm Beach

SIXTEENTH JUDICIAL CIRCUIT
- Monroe

SEVENTEENTH JUDICIAL CIRCUIT
- Broward

EIGHTEENTH JUDICIAL CIRCUIT
- Brevard
- Seminole

NINETEENTH JUDICIAL CIRCUIT
- Indian River
- Martin
- Okeechobee
- St. Lucie

TWENTIETH JUDICIAL CIRCUIT
- Charlotte
- Collier
- Glades
- Hendry
- Lee

Florida's Judicial Circuits, as outlined on the map, are listed on the following pages with corresponding arrest data.

Narcotic Drug Law and Gambling Arrests

NARCOTIC DRUG LAW ARRESTS

Information concerning arrests for narcotic drug law violations is collected and analyzed in Florida according to specific drug categories and by sale or possession violations. Evaluation of arrest data reported for the year 1983 disclosed that 27.5 percent of all persons arrested for narcotic drug law violations were under the age of 21. Persons under age 18 accounted for 10.5 percent of all persons arrested for narcotic drug law violations. A breakdown of arrests by type indicates that 80.8 percent were for possession violations and 19.2 percent were for sale violations. Analysis of individual drug categories (sale and possession together) showed that the highest percentage of all arrests, 71.8 percent, involved marijuana. The lowest percentage of arrests occurred in the methadone narcotics category, amounting to only 0.2 percent of the total reported narcotic arrests. Reported arrests for narcotic drug law violations showed an overall numeric volume increase of 1,805 arrests, or a 5.0 percent increase over the year 1982.

GAMBLING ARRESTS

Arrests for gambling offenses during the year 1983 amounted to 0.3 percent of all reported arrests for Part I and Part II offenses. Males accounted for 87.4 percent of those persons arrested for gambling offenses. Persons under the age of 18 made up only 2.2 percent of all gambling arrests. The age category 25 to 29 made up 15.1 percent of all gambling arrests.

Total reported arrests for gambling offenses during the year 1983 decreased 5.4 percent over the year 1982.

FDLE TABLE

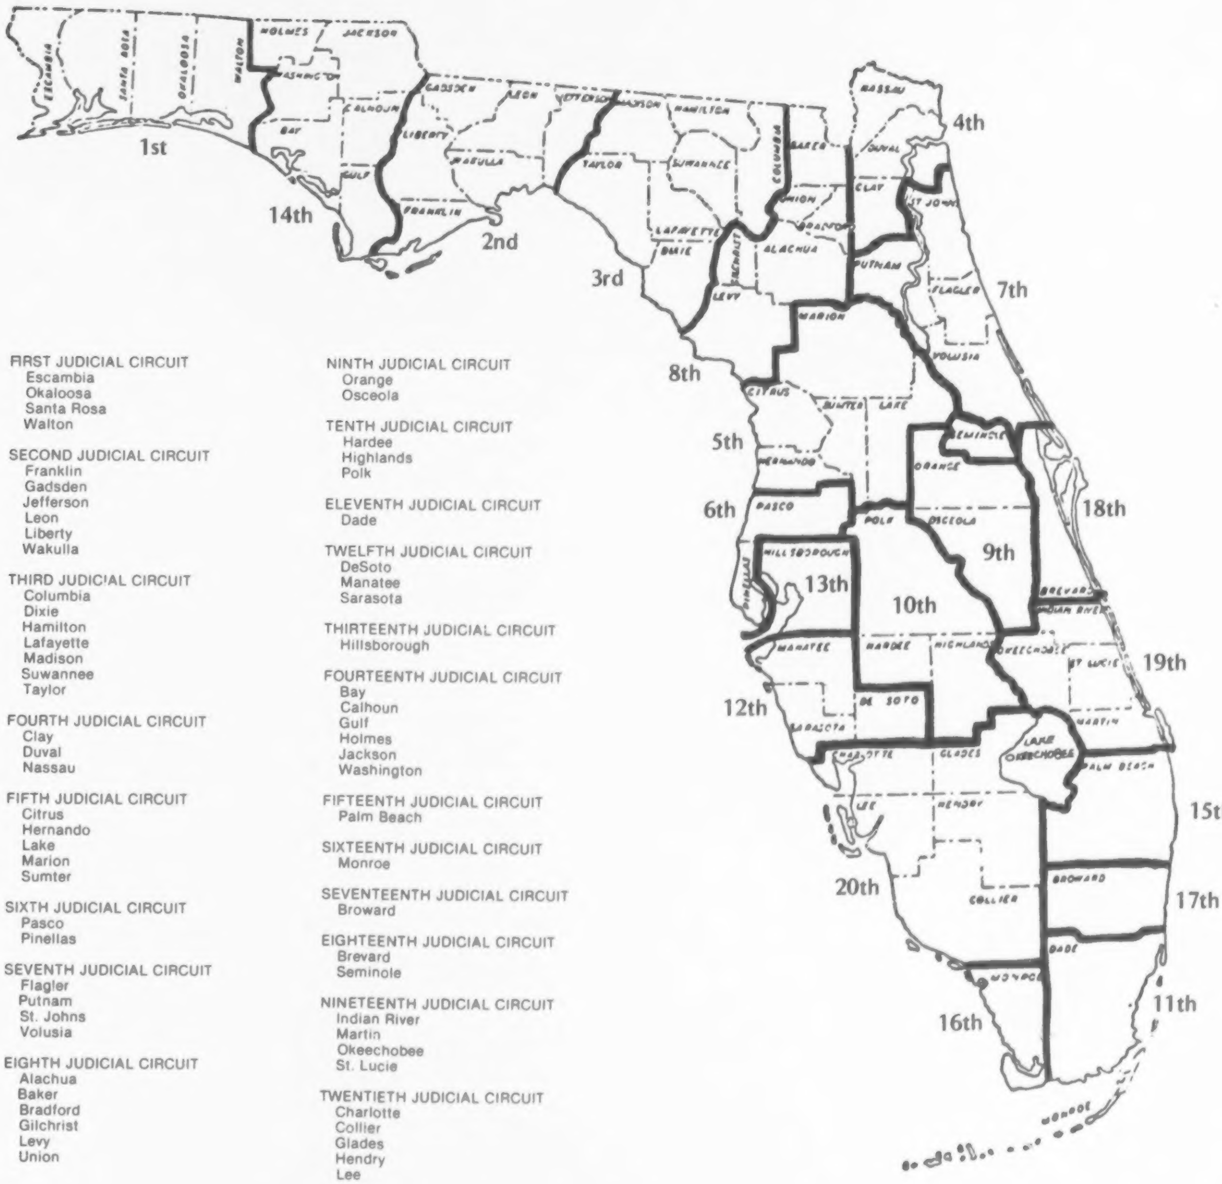
Judicial Circuit Narcotic Drug Law and Gambling Arrests



FIRST JUDICIAL CIRCUIT
- Escambia
- Okaloosa
- Santa Rosa
- Walton

SECOND JUDICIAL CIRCUIT
- Franklin
- Gadsden
- Jefferson
- Leon
- Liberty
- Wakulla

THIRD JUDICIAL CIRCUIT
- Columbia
- Dixie
- Hamilton
- Lafayette
- Madison
- Suwannee
- Taylor

FOURTH JUDICIAL CIRCUIT
- Clay
- Duval
- Nassau

FIFTH JUDICIAL CIRCUIT
- Citrus
- Hernando
- Lake
- Marion
- Sumter

SIXTH JUDICIAL CIRCUIT
- Pasco
- Pinellas

SEVENTH JUDICIAL CIRCUIT
- Flagler
- Putnam
- St. Johns
- Volusia

EIGHTH JUDICIAL CIRCUIT
- Alachua
- Baker
- Bradford
- Gilchrist
- Levy
- Union

NINTH JUDICIAL CIRCUIT
- Orange
- Osceola

TENTH JUDICIAL CIRCUIT
- Hardee
- Highlands
- Polk

ELEVENTH JUDICIAL CIRCUIT
- Dade

TWELFTH JUDICIAL CIRCUIT
- DeSoto
- Manatee
- Sarasota

THIRTEENTH JUDICIAL CIRCUIT
- Hillsborough

FOURTEENTH JUDICIAL CIRCUIT
- Bay
- Calhoun
- Gulf
- Holmes
- Jackson
- Washington

FIFTEENTH JUDICIAL CIRCUIT
- Palm Beach

SIXTEENTH JUDICIAL CIRCUIT
- Monroe

SEVENTEENTH JUDICIAL CIRCUIT
- Broward

EIGHTEENTH JUDICIAL CIRCUIT
- Brevard
- Seminole

NINETEENTH JUDICIAL CIRCUIT
- Indian River
- Martin
- Okeechobee
- St. Lucie

TWENTIETH JUDICIAL CIRCUIT
- Charlotte
- Collier
- Glades
- Hendry
- Lee

Florida's Judicial Circuits, as outlined on the map, are listed on the following pages with corresponding narcotic arrest data.

Special Surveys

Narcotic Drug Seizure and Agricultural Crime Data

FLORIDA DRUG SEIZURES

Background

Over the past several years, illegal drugs entering Florida have become an increasing problem and concern for Florida law enforcement personnel. By way of response to this concern, a drug survey form was developed to collect data on various narcotics and other controlled substances.

The results of this survey involved only those seizures in which 100 pounds or more of marijuana, 28 grams or more of cocaine, 4 grams or more of heroin or its derivatives, 200 grams or more of quaaludes and 28 grams or more of PCP were confiscated. The data collected were forwarded on a voluntary basis by local UCR contributing agencies. Rules regarding geographical jurisdiction, as used for regular UCR data, were employed in submitting the survey information. Unless local agencies assisted in seizures by federal agencies, the data from those seizures will not be included in this compilation.

For simplicity, statistical data will be presented for only specific types of drug seizures, which are marijuana, cocaine, heroin, quaaludes, and PCP. Joint seizures, where more than one drug has been confiscated are grouped under the appropriate category of that drug which had the most poundage seized. However, all weights of drugs confiscated during joint seizures are included in the totals.

Working closely with this survey program, the Department's Division of Local Law Enforcement Assistance provides intelligence support through the Florida Intelligence Center. This support includes pursuing investigative leads, providing an interface with the Federal Narcotics Intelligence Center (EPIC) in El Paso, Texas, and maintaining a central repository for intelligence relating to major criminal suspects including narcotics violators.

1983—SUMMARY ANALYSIS

Of the 327 Florida drug seizures reported, 53 seizures or 16.2% were marijuana, 248 seizures or 75.8% were cocaine, 1 seizure or 0.3% was heroin, 25 seizures or 7.6% were quaaludes and 0 seizures or 0.0% were PCP. Of the total seizures that occurred, 165 were outside the city limits and 75 were made at residences. There were 251 of the 327 seizures occurring between the hours of 12:01 PM and 12 Midnight.

Florida residents accounted for 78.2% of the total number of persons arrested. The largest number of arrests took place in Dade County with 268 or 44.5% of the total. Broward County had the next highest number of arrests with 80 or 13.3%.

With $3,019,835 worth of property seized, aircraft consisted of 28.1% of the total amount or $850,000. The largest number of any one type of item confiscated was that of cars, which constituted 19.3% of the total property value seized.

FLORIDA DRUG SEIZURES BY TYPE OF SEIZURE, ARRESTS AND LOCATION 1982–1983

Classification	1982	1983	Percent Change
Seizure and Arrest Data			
Total number of seizures reported	388	327	− 15.7

Other	96	133	+ 38.5

*Does not include quaaludes.

FDLE TABLE

AGRICULTURAL CRIME

Background

With crime increasing in the rural areas of Florida, high property losses are causing many problems and hardships on those persons who depend on agriculture as their livelihood. Agricultural crime has caused great concern among state and local law enforcement agencies throughout Florida. As a result, a special agricultural crime collection data form was developed to collect information relating exclusively to agricultural crime. Collection of agricultural crime data began in January, 1981.

The agricultural crime collection form is forwarded only to sheriff's offices because the nature of the data being requested is generally not reported to a municipal law enforcement agency. Agricultural crime data is submitted to the UCR Program on a voluntary basis and because of that and the fact that only sheriff's offices submit the information, the true number of these types of crimes may not be totally shown.

AGRICULTURAL CRIME INCIDENT, LOCATION, ARREST AND PROPERTY DATA* 1982–1983

Classification	1982	1983	Percent Change
Incident Data			
Total number of agricultural crimes	1,375	1,086	− 21.0

*Offenses and other data voluntarily submitted by sheriff's offices only.

**Property recovered is only that amount recovered at the time of the incident.

FDLE TABLE

Victim Characteristics

VICTIM DATA COLLECTION SYSTEM

During 1983, various characteristics were collected on the victims of rapes and assaults. Victim data was voluntarily submitted by agencies on the age, race, sex, residency and ethnicity of the victim, as well as the relationship of the victim to the offender. Submission of all data elements are required except ethnicity and relationship, which are optional. Within the Uniform Crime Reports Section, of the Florida Department of Law Enforcement, statistical offense and arrest data has been collected for many years. Therefore, previously established and familiar UCR guidelines, definitions and methodology were incorporated and applied to the collection of victim data.

DISTRIBUTION OF VICTIMS BY SEX, RACE AND RESIDENCY
1983

Offense	Total	Sex		Race			Residency**

LAW ENFORCEMENT PERSONNEL KILLED OR ASSAULTED

The Florida Uniform Crime Reporting Program requires the monthly compilation of statistical information relating to law enforcement officers killed in the line of duty and the number of assaults made on law enforcement officers.

The killing or assault of a law enforcement officer is an increasingly serious problem faced by the law enforcement administrator and should be of the gravest concern to the public at large. Such acts directly affect the functioning of proper law enforcement operations and thus reduce the ability of our law enforcement agencies to combat crime and maintain law and order. It is a deplorable situation when those persons who have chosen a career in law enforcement must assume the risk of being killed or assaulted by a member of the society they have sworn to protect.

LAW ENFORCEMENT OFFICERS KILLED

Five law enforcement officers and one correctional officer were killed in the line of duty during 1983.

This is one more than was killed in 1982. From 1969 through 1983, there have been sixty-nine officers killed in the line of duty. All of the offenses, except for one, have been cleared by arrest or by exceptional means.

On March 16, 1983, a deputy with the Lee County Sheriff's Office was killed with a 16 gauge shotgun during a domestic disturbance.

On March 29, 1983, a deputy with the Collier County Sheriff's Office, after giving chase to armed robbery suspects, was killed as a result of shots fired from a .22 caliber automatic pistol and a .22 caliber automatic rifle.

On May 5, 1983, a correctional officer with the Union Correctional Institution was killed by an inmate with a knife while he and another correctional officer were walking through the main housing unit to pick up another inmate to take to the investigative unit.

On May 17, 1983, an officer with the Jacksonville Sheriff's Office was killed with a .22 caliber revolver while placing a suspect in his patrol car for resisting arrest and making a false police report.

On July 18, 1983, an officer with the Kissimmee Police Department was killed with a .38 caliber revolver during a domestic disturbance.

On December 24, 1983, an officer with the Metro-Dade Police Department was killed with a .38 caliber revolver during a struggle with a subject who matched the description of a robbery suspect who was allegedly armed.

Four victims were killed from a range of less than 5 feet, one at 60 feet, and one at 150 feet. Only two of the six deaths occurred without any warning alerting the officers to immediate danger.

The officers killed had 4.5 years, 12 years, 5 years, 1.5 years, 5 years and 2 years of law enforcement or correctional experience, respectively. Their ages were 24, 33, 29, 28, 25 and 25. The ages of the suspects were 16, 17, 18, 21, 24, 25, 25, 28, 35, 40 and 50.

The times of occurrences were 12.36 AM, 2:10 PM, 6:00 PM, 6:53 PM, 8:54 PM and 9:09 PM.

ASSAULTS ON LAW ENFORCEMENT OFFICERS

The attitude of disrespect for law enforcement officials and the failure of citizens to come to the aid of the officers being attacked as they attempt to perform their lawful duties is one of the serious problems facing law enforcement today. A total of 6,044 assaults on state, county and municipal law enforcement officers in Florida were reported during the year 1983. This represents a 0.2 percent increase over the 6,032 assaults reported for the year 1982. While every assault does not result in personal injury to the officers involved, many of them did result in physical harm to the officer and loss of duty time in many cases. During 1983, 1,295 or 21.4 percent of these assaults resulted in personal injury to some extent, while 1982 showed a 19.9 percent physical injury rate.

ASSAULTS ON STATE CORRECTIONAL OFFICERS

Correctional officers are in constant danger of injury and even possible death due to their direct involvement with various levels of dangerous criminals in the inmate population. Their continuous association with these inmates while performing their duties and responsibilities can sometimes result in them being attacked. A total of 423 assaults were reported on state correctional officers during 1983. This represents a 17.2 percent decrease over the 511 assaults reported for the year 1982.

Correctional officer data are not included in the tables and charts of this section. The reason for this is because they cannot be placed in the general population base since they are affected only by those persons within the facility that they work in.

LAW ENFORCEMENT EMPLOYEE DATA

The Florida Uniform Crime Reporting Program, in addition to collecting basic offense and arrest information, provides for the annual compilation of statistical information relating to county and municipal law enforcement employees.

Specific information concerning the number of law enforcement employees reflects that there were 33,163 full-time sworn and civilian employees as of October 31, 1983, excluding the 4,216 state law enforcement, university and county school police, airport police and Seminole Indian Reservation employees. This reflects an increase of 6.0 percent over the 31,276 reported as of October 31, 1982.

In 1983, the average number of full-time law enforcement employees (both police and sheriff employees), including civilian personnel, amounted to 3.1 employees for each 1,000 inhabitants of the state. This represents an increase of 3.3 percent over the 1982 rate. The rate based on sworn personnel only (excluding civilian employees) amounted to 2.0 per 1,000 population, which reflects an increase of 5.3 percent over the 1982 rate. The reader is reminded that the employee rates, expressed here and within the various charts, should not be construed as representing recommended ratios for Florida law enforcement agencies. These rates do not take into account the previously mentioned factors and merely represent an average based on county and municipal totals. This rate does not include the state law enforcement, university and county school police, airport police or Seminole Indian Reservation employees.

LAW ENFORCEMENT EMPLOYEE RATES

The rate of law enforcement employees per 1,000 population in any given community is influenced by a number of factors, much the same as the crime rate. Employee rates differ among agencies since, in particular, there is a wide variation in the responsibilities and level of activity within the various law enforcement agencies. The determination of law enforcement strength for a given county or municipality is based on factors such as population density, size and character of the community, geographic location and other conditions which exist in the area generating the need for law enforcement services.

The relative stability of population factor, for instance, is particularly evident in Florida, with its numerous resort areas having high mobile and seasonal populations. Obviously, the need for law enforcement services in such areas is different from that of locales with a relatively fixed population.

COUNTY SHERIFF'S DEPARTMENTS

As of October 31, 1983, there were 16,287 persons (sworn and civilian) employed full time in Florida's 66 countywide law enforcement agencies (Office of the Sheriff—Jacksonville is included in the municipal figures). Of these, 8,607 were sworn sheriffs and deputies amounting to a rate of 1.7 sworn personnel per 1,000 population, reflecting an increase of 6.3 percent from the rate of sworn officers in 1982. The 1983 civilian employees constitute a rate of 1.5 employees per 1,000 estimated population. The computation of the personnel ratios is based on the estimated population of the unincorporated areas of the counties and not on the entire county estimate. This does not include the state law enforcement, university and county school police, airport police or Seminole Indian Reservation employees.

In an attempt at comparisons of employment levels of individual sheriff's departments with other agencies, consideration must be given to certain functions that are peculiar to a sheriff's department. In addition to their active role in criminal matters, they may serve civil process, administer major jail facilities and furnish a bailiff staff for the courts. These functions are usually performed by sworn personnel, thereby presenting a misleading picture of the actual enforcement strength of the department.

MUNICIPAL POLICE DEPARTMENTS

Of the 16,876 full-time employees (sworn and civilian) employed by 275 municipal police departments in Florida as of October 31, 1983, 12,219 were sworn personnel. This amounts to a rate of 2.3 sworn personnel per 1,000 estimated inhabitants. The number of municipal sworn employees increased 2.7 percent from 1982, and the rate reflected an increase of 4.5 percent over the 2.2 per 1,000 population in 1982. The 4,657 civilian employees constituted a rate of 0.9 employees per 1,000 population. This does not include the state law enforcement, university and county school police, airport police or Seminole Indian Reservation employees.

SEX OF LAW ENFORCEMENT EMPLOYEES

The year 1972 represented the first year that information was collected on a statewide basis concerning the sex of sworn and civilian full-time employees. Male and female breakdowns are now required on both civilian and sworn employees as well as the total law enforcement employees. As of October 31, 1983, males constituted 73.9 percent of all employees while there existed 26.1 percent full-time female employees. Of the sworn personnel, 92.2 percent were male and 7.8 percent were female employees. These sworn rates differed markedly from the staff function rates as males made up 42.9 percent of the civilian employees while 57.1 percent were females. This does not include the state law enforcement, university and county school police, airport police or Seminole Indian Reservation employees.

Glossary of Terms

GLOSSARY OF TERMS

ADULT — For Florida Uniform Crime Reports purposes, a person age 18 or above.

AGRICULTURAL CRIME — Any willful or malicious act committed by any individual(s), which results in damage to or loss of livestock, crops, land, materials, equipment or structures used in or produced as a result of any agricultural practice, excluding commercial agricultural businesses not owned by the producer.

ARREST RATE — The number of arrests reported for Part I and Part II offenses for each unit of population, generally per 100,000. Arrest rates are computed in the same manner as crime rates.

CLEARED BY ARREST — For crime reporting purposes, an offense is cleared by arrest or solved when at least one person is (1) arrested, (2) charged with the commission of the offense and (3) turned over to the court for prosecution.

CRIME FACTORS — Conditions which affect the amount and type of crime that occurs in a geographical area. (See page 11 for the list of Crime Factors.)

CRIME INDEX — The sum total of seven major offenses used to measure the extent, fluctuation and distribution of crime in a given geographical area. Crime classifications used in the Index are: Murder, Forcible Rape, Robbery, Aggravated Assault, Breaking and Entering—Burglary, Larceny and Motor Vehicle Theft. Each of these offenses is referred to as an "Index Offense".

CRIME RATE — The number of Index Offenses reported for each unit of population, generally per 100,000. Crime rates are computed for communities with varying populations by dividing the number of Index Crimes by the population and multiplying the answer by 100,000. (Example: 500 Index Offenses ÷ 10,000 population x 100,000 = 5,000 Crime Rate.)

EXCEPTIONAL CLEARANCE — A crime solution or clearance recorded when some element beyond law enforcement control precludes the placing of formal charges against an offender.

JUVENILE — For Florida Uniform Crime Reports purposes, a person under the age of 18.

NONRESIDENT OUT OF COUNTY, ARRESTED — An arrested person who resides within the State of Florida, but outside the county in which the arrest report is made.

NONRESIDENT OUT OF STATE, ARRESTED — An arrested person who resides outside the State of Florida, but committed crime(s) in the State of Florida.

NONVIOLENT CRIME — Consists of the Index Offenses of Breaking and Entering—Burglary, Larceny and Motor Vehicle Theft.

PART I OFFENSES — The first of two main categories of crime classes composing a universal crime classification system established for crime reporting purposes. Part I offenses are by their nature more serious and/or occur most frequently. The tabulation of Part I offenses provides a count of "offenses known". (See page 9 for a listing of these offenses.)

PART II OFFENSES — The second of two main categories of crime classes composing a universal crime classification system established for crime reporting purposes. Part II offenses are generally less serious in nature and/or occur less frequently. Tabulations of Part II offenses are limited to arrest information only.

VICTIM — Any person who suffers injury or personal property loss or who is put in fear of such injury or loss, as the result of an unlawful act of another.

VIOLENT CRIME — Consists of the Index Offenses of Murder, Forcible Rape, Robbery and Aggravated Assault.
